

CARTRIDGES

EXPERIENCE: Since the mid 1980's, our experience and success in providing cartridge filling systems has positioned ProSys as a world leader for solving difficult applications.

Products:

- Sealants
- Adhesives
- Hot Melt Adhesives
- Silicone
- Epoxies
- Pharmaceuticals
- Grease
- Urethanes
- Food

SPEEDS	MODELS	CARTRIDGES PER MINUTE
Low	Manual	up to 25
Medium	Rotary	up to 80
High	Linear Multi Head	up to 250

ProSys 
Made in the USA

TECHNOLOGY: ProSys' designs and manufacturing solutions balance leading-edge technology with simplicity and reliability.

- **Configurations:** Vertical bottom-up fill for air-free filling. Small footprint for production floor optimization. Rotary and linear layouts.
- **Modular:** Common designs on all models, upgradeable and flexible stations.
- **Patented Technology:** Viscous filling, container closure systems and container handling.
- **Safety References:** Ergonomically designed, proactive approach, defined safety review and risk assessments. Meeting ANSI/PMMA B155.1.
- **Filling / Dosing:** Patented, versatile, *SERVO* technology, air-free programmable fill sequence for self leveling or viscous products.
- **Product Feed Methods:** Pressure feed, heated vessel, drum press or pump systems available from ProSys.
